

Truth and Superstition

The teachers of the Department of Humanitarian Subjects. Including Azimov.Kh, Alimukhamedova N, Abdurakhmanova I, Normatov O, Botirova Kh. organized a roundtable talk at the 2nd students' dormitory on topic 'Choose the right belief. History and Roots of Religious Extremism and Terrorism ". During the discussion, the students were explained the history and current activities of Islamic groups by proving their negative impact on society and humanity.

This is explained by the fact that teachers are deeply neglected in Islam or that Islamic knowledge is not studied by professionals, but by "fake scientists" or by financial interests. It was pointed out how young people are following the corrupt beliefs, how they can choose the right religion, who and what literature they should use. For this purpose a teacher of the Department of Humanitarian Subjects Abdurakhmanova I. organized a mobile library. The students were introduced to the literature available today at the libraries of the Muslim Board of Uzbekistan and the Religious Committee for the purpose of preventing young people from taking the literature out of the useless and harmful streams. From these publications, students are told that they can have religious knowledge, such as their beliefs, fiqh knowledge, kalam, fard of Islam, sin, lawful and unclean and social morals. The students looked through these publications with great interest and wrote their lists. The students gave questions of their interest . The teachers answered the students' questions in detail.
