

The signs of humanity

It is well known that every person living in our country enjoys positive qualities, such as humanity, kindness and tolerance. Yes, of course, each of us, regardless of which country we are representing, wants to show positive qualities to keep up with our compassion for every human being. These days, celebrating the 27th anniversary of the establishment of the Armed Forces of the Republic of Uzbekistan and the Day of the Defenders of the Homeland, it is not an exaggeration to say that such charitable events are a form of good deeds. It's not secret that every year on the eve of this great holiday, it is a tradition to organize such good-natured adventure events. In particular, active students of the Youth Union of the faculty Mechanization of Hydromeliorative Works visited the habitats of Lashkarbegi community in Mirzo-Ulugbek district of Tashkent on January 15. It was a good prove that our students are eager to show their care and kindness towards the needy elderly people.

Report by O.Ruzibayev, the deputy dean for youth work of the faculty of MHW
