

National idea - the top of the goal

National idea is a set of ideas that will give meaning to the life of a particular nation and lead it to a noble goal. It embodies the past, present and future of the nation, its core interests and goals. The national idea, in its essence, reflects the tasks and targets that need to be addressed in the fate of the people, the nation, for a short or long term.

On 26th of March the First Quiz Olympiad on National Ideology was held by professor-teachers of the department of "Humanitarian Sciences" of the faculty of MHW including E.Kalqonov, M. Khakimova, M. Turdiboyeva and B. Mukimov. A group of 4-year students of the Institute participated and became the winners.

During the first stage of the Olympiad, we were convinced that the students could demonstrate their scientific potential. Their clear and honest answer to their questions is the mark of the bright future.

Report by B.Mukimov, an assisstant of the department of "Humanitarian sciences"

R.Jumaniyozov, the press secretary of the institute
